

Choose Spectrum Plastics Group for all of your medical packaging needs

Our vision—to be a trusted partner and leader in the Medical Device industry, providing comprehensive and highly engineered plastics solutions.

Our core product offering

- **FormFlex®**—a High Performance bottom web designed to meet the most demanding thermoforming sterile applications. Providing excellent puncture, abrasion and crack resistance with a wide forming and sealing window. Bottom forming webs are available for coated and uncoated Tyvek™ and papers.
- **FlexPak®**—a High Clarity bag with easy opening functionality for non-sterile applications. Provides excellent puncture, abrasion and crack resistance with excellent forming and corner thickness using normal operating temperatures.
- **Pouches**—used in applications requiring sterile presentation. They are available in a range of materials such as PET/Paper, PET/Tyvek, and Film/Film Peelable. Pouches offer the versatility of printing in one color in registered or random print, with opening forces of 1-2 lb peel.
- **Header Bags**—excellent for component sets, bulky sets, and sterile presentation. Header bags come in a variety of materials such as Film/Paper, Film/Tyvek, Film/Film peelable, and come with a 1-2 lb peel force.

- **Liner Bags**—used for a variety of applications such as: bulk components, clean room bags, component transfer, and as dust covers. Liner bags can be sterilized, manufactured as ultra durable, thin, or a combination of both.

Our core service offering

- Custom Packaging Design
- Printing
- Sealing
