

A Trusted Partner

for components, sub-assemblies
& value-added solutions for
the medical device & contract
manufacturing industries.

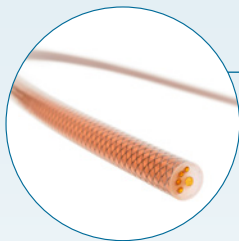

Medical Tubing

- Single/Multi-Lumen Tubing
- Paratubing
- Wire Encapsulated Tubing
- Multi-layered Extrusion
- Bump/Tapered Tubing
- Tube Bending/Coiling
- OEM Plastic Components
- Value-Add Services & Assemblies

Specialty Molding

- Implantable Surgical Components & Systems
- Insert Molding
- High-Temperature Molding
- Bioabsorbables
- Micro & Small Part Molding
- Multi-shot Molding

Vascular Technologies

- Thermoplastic & Silicone Tubing
- Apollo™ Multi-lumen & Microbore Tubing
- Co-extrusion
- Core Mandrel
- Sub Ultra-Thin Wall Tubing
- Adam Spence™ High Pressure Braided Tubing
- Catheter Design & Assembly
- Silicone Liquid Injection Molding & Sub-Assemblies
- Secondary Operations including: Tipping, Skiving, Overmolding, Coiling/ Braiding, Reflow, RF welding, & more

Film

- Flexible Medical Packaging
- Header Bags
- Converted Bags with/without Printing
- Converted Pouches
- Single/Multi-layer Films
- Peelable Pouches
- Wicketed Bags
- Sterile Barrier Pouches
- High Barrier Pouches
- Tyvek/Poly Pouches
- Linear Tear Bags
- Liner Bags

Materials

PVC • Nylons • Polyolefins • Polyurethanes • Thermoplastic Elastomers
Bioresorbables • Fluoropolymers • Polycarbonate • PET • POM • PEEK • Silicone
