

## **Waste and Water Management Policy**

### **Purpose:**

To support Spectrum Plastics Group's commitment to recover and reuse water and waste.

### **Waste Management**

Our company understands the importance of waste management and its effect on the environment. We are committed to minimizing waste production by employing Reduction, Re-use, and Recycling techniques at every stage of our operation. We are committed to ensuring that all operations and activities are fully compliant with all current waste management legislation.

#### Waste Management Plan:

- ✓ Identify areas of waste production throughout the sites.
- ✓ Employ effective waste management practices to identify the most efficient methods to reduce the production of waste and to maximize the re-use or recycling of waste material.
- ✓ Manage the process to ensure compliance with best practice.
- ✓ Through training and support, ensure that all staff are aware of their responsibilities under Environmental Law and how compliance can be achieved and maintained.

### Water Management

SPG considers the role of water to be crucial, as a natural capital, and promotes its efficient management to reduce the unnecessary waste of this important resource.

Our Water management plan will help our facilities set long- and short-term water conservation goals.

#### Water Management Plan Initiatives.

- ✓ Meter/Measure/Manage
- ✓ Optimize Cooling Systems

- ✓ Replace Restroom Fixtures
- ✓ Use Water-Smart Landscaping
