

Fluid Management Tubing, Components and Sub-Assemblies

We offer a scalable, full-service package made to your precise specifications, including tubing, fittings, molded components, subassemblies, and assemblies.

Tubing Capabilities

- Fluid management tubing diameter 0.020" to 1.500"
- Microbore tubing diameter 0.010" to 0.500"
- Single and multi-lumen tubing
- Paratubing
- High pressure braided tubing
- Striped, radiopaque, or color coded
- Co-extrusions
- Bubble or taper tubing
- Printed tubing
- Manifold tubing
- Bonded coils
- Drop chamber tubing
- Off-the-Shelf PVC tubing
- Off-the-Shelf tubing
- Custom R&D runs
- High volume production

Components and Fittings

- Luers
- Bags
- Clamps
- Chambers
- Spikes
- Caps
- Valves
- Assemblies

Value-Add and Finishing Services

- Fabrication and secondary operations
- Bonding (solvents, UV adhesives, radio frequency and ultrasonic welding)
- Spooling
- Assembly (automated and manual)
- Packaging (sterile and non-sterile)
- Product testing

Sterile and Non-Sterile Packaging

- Performance Films
- Converted bags and pouches
- Pouches made with DuPont™ Tyvek®
- Header bags made with DuPont™ Tyvek®
- Lids made with DuPont™ Tyvek®

Products Manufactured

- IV extension set tubing and components
- Drug infusion pumps, components and systems
- Infusion systems
- Administration sets
- Drip bags and spikes
- Catheters, connectors, accessories, and regional anesthesia trays and kits

Our long-term customer partnerships have sustained an unrivaled worldwide manufacturing footprint with fully integrated engineering, quality and customer service functions.

Thermoplastic Materials

- PVC
- Polyethylene
- Polypropylene
- Polyurethane
- Nylon
- Polycarbonate
- EVA
- Thermoplastic elastomers
- Thermoplastic rubbers
- Highly engineered polymers
- Fluoropolymers

Technical Services

- Design and prototyping development
- Material selection
- Full program management

Quality

- Enterprise QMS
- SPC measurement systems
- Quality controls
- Class 8 cleanroom manufacturing
- 510k and regulatory services
- ISO 13485 certified

End-Use Markets

- Anesthesia
- Blood collection and separation
- Cardiology
- Chemotherapy
- Dialysis
- Endoscopy
- Enteral feeding
- IV therapy
- Ophthalmology
- Orthopedics
- Wound care
